

## EURVC-UB CONVENTIONAL DETECTOR BASE (100-3500V)

Conventional detector low profile mounting base. Secure and reliable cable termination. The base does not provide line continuity during detector removal.

A useful terminal provides remote indicator output.

### KEY FEATURES

- Accepts 2.5 sq mm cables.
- Low insertion force for detector
- Easy to fix.
- Robust ABS Design
- Available with already installed alarm current limitation resistor.

### TECHNICAL SPECIFICATION

Diameter	110mm
Weight	15 g
Mounting	with two screws on the ceiling or suitable box
Base screw clamp	wire max 2.5 mm <sup>2</sup>

### STANDARDS & APPROVALS

#### VERSIONS AVAILABLE

100-3500V	Standard Universal Base
100-3511V	Universal Resistor Base
100-3510V	Universal Diode Base
